

Microblade After-Care

For the 14 days following your Microblade, the below is recommended:

- Apply the provided vitamin-rich ointment to the brows using a Q-tip 3x per day for hydrated healing and to avoid flaking
- Wash your hair as you normally would, but avoid getting brows wet in the shower or when washing face
- Avoid swimming, saunas, hot tubs and steam rooms
- Keep sweat-inducing exercise to an absolute minimum
- Avoid sun exposure and facials/treatments
- Keep brow area free of medications, cleansers, moisturizers and makeup
- Expect to see changes in your brow color they heal
- Schedule a touch up for about 6 weeks after your initial procedure
